## Ministry Background:

Moldova is the poorest, least developed country in all of Europe. Located between Romania and the Ukraine, it is primarily an agricultural community. For many years they suffered under communist oppression, and in the past 14 years they have had corrupt and inept leadership. The Orthodox Church is very powerful, and evangelicals are persecuted as a cult.

One of the most effective forms of change, both spiritual and economical, is for the local church to aid and develop small businesses with help from the West.

This provides a means of income for the people, as well as teaches them honesty and true Christian values. EuroTeam is working with other mission organizations, in cooperation with local church leadership, in building churches, as well as small businesses (fish farms, packing plants, store fronts).
